

Are U Insurance SMART?

My credit card offers free travel insurance when I charge my air ticket.
Is it the same as the travel insurance I have to pay for?

#2

- 1 Not all travel insurance products are the same. Some offer more coverage than others.
Ask yourself: are you getting the protection you need?
- 2 For example, you might want to consider cover for:
 - medical/surgical or hospitalisation charges incurred overseas
 - hospital income
 - loss of travel deposit
 - emergency medical evacuation and transportation back to Malaysia.Important for any traveller, these benefits are essential if you are travelling with the elderly or young children. If a free 24-hour medical and emergency assistance service is included, so much the better.
- 3 Always check your coverage to ensure it meets your travel needs. Always read the exclusions and understand what's covered and what's not.

"Are U Insurance Smart?" is an initiative by MSIG Insurance that provides answers to questions about general insurance that you may not know enough to ask. Visit www.msig.com.my regularly to stay updated.
